

IKENNA RICHARD

FRONTEND DEVELOPER

oguejioforrichard@gmail.com | [GitHub](#) | [LinkedIn](#) | [Twitter](#) | [Medium](#) | [Portfolio](#)

SUMMARY

An enthusiastic and resourceful Frontend Developer with a comprehensive understanding of modern front-end development frameworks and tools, specializing in ReactJS and Redux. Proficient in modern web development tools and techniques, adept at collaborating with design, product, and engineering teams to bring carefully crafted web interfaces to life across desktop and mobile platforms

SKILLS

Front-End: JavaScript, React.js, Redux, HTML5, CSS3, Bootstrap, Styled Components

Back-End: Ruby, Ruby on Rails, PostgreSQL

Tools: React Testing Library, Git, GitHub, Jest/Vitest/Rspec

Methodologies: Agile, Test-Driven Development (TDD), SOLID

Professional skills: Communication, Adaptability, eagerness to learn, and openness to feedback

EXPERIENCE

HIGHLIGHTED PERSONAL PROJECTS

Full Stack Engineer

Remote
February 2023 – Present

- Actively participated in the development of user interface components using React.js
- Maintained a commitment to writing clean, maintainable, and well-documented code.
- Ensured the integrity of interactions and maintained consistency throughout the project development life cycle.

[Bookstore](#) – A web app that streamlines book management for effortless reading. Users can access an extensive collection of books from the comfort of their homes, reducing the need to visit physical bookstores.

- **Built with: React and Redux**
- Live Demo: [Bookstore](#)

[Budget Buddy](#) – An intuitive mobile web application designed for efficient budget management. Users can oversee their expenses through categorized transactions, providing clear insights into spending amounts and specific expenditure details.

- Applied test-driven development (TDD) principles to ensure code quality and functionality.
- Implemented user authentication and authorization features for secure access.
- **Built with: Ruby on Rails**
- Live Demo: [Budget Buddy](#)

[Rest Countries](#) – A web app that fetches up-to-date country data from an API. It features dynamic search and filtering, offering users detailed country information, including neighboring nations. It also includes an optional light and dark mode theme.

- **Built with: React and React Query**
- Live Demo: [Rest Countries](#)

ESSENTIALS SUPERMARKET

Sales Associate

Enugu, Nigeria
April 2010 – September 2011

- Mentored 5 junior sales associates, helping them achieve their sales targets and fostering a sense of teamwork.
- Spearheaded employee engagement initiatives, resulting in a 20% increase in overall employee satisfaction scores.

EDUCATION

MICROVERSE

Remote Full Stack Web Development Program, Full Time

February 2023 – Present

- Spent 1300+ hours mastering algorithms, data structures, and full-stack development while simultaneously developing projects with Ruby, Rails, JavaScript, React, and Redux.
- Developed skills in remote pair-programming using GitHub, industry-standard gitflow, and daily standups to communicate and collaborate with international remote developers.
- Developed and implemented front-end features, showcasing a commitment to user-centric design.

FAR EASTERN UNIVERSITY

June 2012 – May 2016

Bachelor of Science, Business Administration - Business Management

- Conducted thorough research and analysis into how modern digital marketing approaches influence consumer decision-making processes.
